

range **MAGIC**

Pallet

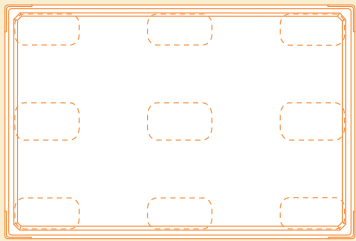

The pallets of the MAGIC range are available in two sizes: 800x1200 e 1000x1200 mm. They are achievable in a version with the floor completely closed, with or without perimeter groove, or with the floor not completely closed, with nine cavities in order to fit in the feet and allow the stackability of the pallets. On request, the pallets MAGIC can be made with raised edges for the containment of the load.

- printed in recycled or not recycled polyolefin resins, or in other materials
- anthracite coloured and available in other colours (for food products)
- stackable and built-in
- forklifting on 4 sides
- washable and hygienic
- no fumigation required
- solid and humidity-resistant
- storable outdoor
- can be completed with various accessories (PP belt, injection molded lid etc.)
