lite

Box Container

The packaging system LITE has the range's pallet as base and can be produced in various heights and dimensions according to the specific needs of the customer. It is the ideal solution for the packaging industry because of its strength, manoeuvrability and competitive price.

The available formats are: 400x600 (MINI box), 600x800 (DEMI box), 600x1200, 800x1200, 900x1200, 1000x1200, 1100x1200, 1200x1200 mm. The packaging consists of a pallet, an injection molded lid and an extruded polypropylene belt.

- assemble and reusable
- durable and resistant, to protect the security of the products
- all the elements are easily and quickly assemblable, re-usable and 100% recyclable
- foldable, reduction of 70% of the storage volume, reduction of costs of transports
- used in different sectors ( textiles, food, pharmaceutical, automotive, electronic, etc)
- possibility to equip the box with runners and side doors

#### PERSONALIZED EXTRA-DIMENSIONS

MAXI LITE are pallet and foldable containers with "non-standard" dimensions, obtained joining in different ways the part of the range LITE.

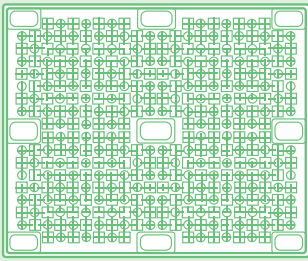

The pallets are cut and joined through metal parts. The lids are cut and joined through metal plates and rivets. The extruded PP belts are produced, as usual, according to the requested height.

Up today we have already produced the following sizes: 1000x2030 mm - 800x1820 mm - 800x2400 mm - 800x2000 mm - 800x2300 mm and additional ones can be produced according to the different requirements.
